

Top 10 reasons to choose Fife College for your higher education studies

1

No need to commit to four years of study at university – at college, you can take each year at a time.

2

And by doing so, you could gain a recognised qualification for every year of study.

3

Treat college as a 'stepping stone' – study for an HNC, then HND, then choose whether to progress to later years of a degree course at university or college.

4

Studying closer to home will mean lower living, travel and study costs than going away to university.

5

We have flexible learning options – full-time, part-time, online and even some non-standard hours choices – to fit in with your home, family or work life.

6

Our close links with local industry means that you could gain real-life work experience while you study.

7

You'll enjoy smaller class sizes than you would at university, so the whole teaching/learning experience is more supportive and personal.

8

For those still at school, you could start your higher education journey and even complete the equivalent of the first year of a degree course before leaving school!

9

For adults thinking of returning to education, did you know that 25% of our students are over the age of 40 – we've got courses for everyone!

10

We have some fantastic facilities, and a superb student support team who are on hand to help you with any questions you have around funding, applications or employability.
